CONTENTS

No. 1. December, 1941

Adrenaline Ester. *Derek Richter and F. C. MacIntosh* 1
Studies of Digestion in the Dog. *H. Wasteneys, Bruce F. Crocker and Paul Hamilton* 6
Warmth Sense in Relation to the Area of Skin Stimulated. *C. M. Herget, L. P. Granath and J. D. Hardy* 20
Studies in Exercise Physiology. *Craig Taylor* 27
Observations on the Return of Vascular Tone After Sympathectomy. *Philip M. LeCompte* 43
The Adrenal Gland and Food Intake. *Richard A. Groat* 58
Studies on the Metabolism of Pantothenic Acid in Man and Rabbits. *Paul B. Pearson* 69
Some Effects of Sulfanilamide on Man at Rest and During Exercise. *F. J. W. Roughton, D. B. Dill, R. C. Darling, Ashton Graybiel, C. A. Knehr and J. H. Talbott* 77
The Effects of Renin and of Angiotonin on the Renal Blood Flow and Blood Pressure of the Dog. *J. F. Herrick, A. C. Corcoran and Hiram E. Essex* 88
Permeability of Erythrocytes to Radioactive Potassium. *L. J. Mullins, W. O. Fenn, T. R. Noonan and L. Haege* 93
A Diabetes Inspidus-Like Condition Produced by Small Doses of Desoxycorticosterone Acetate in Dogs. *Michael G. Mulinos, Clifford L. Spingarn and Mary E. Lojkin* 102
The Tubular Reabsorption of Urea, Thiourea and Derivatives of Thiourea in the Dog Kidney. *Henry J. Nicholes and Raymond C. Herrin* 113
The Effect of Nephrectomy on the Blood Pressure Response to Renin and Angiotonin. *S. Rodbard* 124
Lipocacic and Ketonemia in Pancreatic Diabetes. *Lester R. Dragstedt, J. Garrott Allen, Ormand C. Julian and Dorothy Stinger* 133
Effect of Pancreatic Achylia on Vitamin K Absorption and Prothrombin Time. *E. E. Sproul and Elmer Key Sanders* 137
The Exchange of Radioactive Potassium with Body Potassium. *W. O. Fenn, T. R. Noonan, L. J. Mullins and L. Haege* 149
Electrolyte Changes in Submaxillary Glands During Stimulation. *J. H. Wills* 164
The Effect of Adrenal Cortical Hormone on the Synthesis of Carbohydrate in Liver Slices. *G. F. Koepf, H. W. Horn, C. L. Gemmill and G. W. Thorn* 175
The Rate of Glucose Absorption from the Intestine of the Rat. *Eaton M. MacKay and William G. Clark* 187
The Influence of a Diet with a High Protein Content upon the Appetite and Deposition of Fat. *Eaton M. MacKay, Richard H. Barnes and Herbert O. Carne* 193
Observations on the Localization of the Receptor Area of the Bainbridge Reflex. *I. Robert Ballin and L. N. Katz* 202
The Origin of Renin-Activator. *Irvine H. Page, Barton McSwain, G. M. Knapp and W. D. Andrus* 214
Studies on Normal and Depancreatized Domestic Ducks. *I. Arthur Mirsky, Norton Nelson, Isabelle Grayman and Morton Korenberg. With the technical assistance of Lee Rosenberg* 223
Certain Effects of Desoxycorticosterone. The Development of "Diabetes Insipidus" and the Replacement of Muscle Potassium by Sodium in Normal Dogs. *Joseph W. Ferrebee, Donald Parker, William H. Carnes, Mildred K. Gerity, Dana W. Atchley and Robert F. Loeb* 230

Additional Evidence of Qualitative Differences Between the Resting and Activity Oxygen Consumptions of Frog Muscle. *J. N. Stannard* 238
Respiration and Glycolysis of Bone Marrow of Rabbits Exposed to Lowered Oxygen Tension. *Charles O. Warren* 249

No. 2. January, 1942

Iron Absorption in the Absence of Bile. *Paul W. Smith and Lathan A. Crandall, Jr.* 259
Biological Utilization of Esters of Pantothenic Acid. *K. Unna and C. W. Mushett* 267
Effects of Asphyxia, Anoxia and Myocardial Ischemia on the Coronary Blood Flow. *Harold D. Green and René Wégria* 271
A Study of Thalamo-Cortical Relations. *R. S. Morison and E. W. Dempsey* 281
The Production of Rhythmically Recurrent Cortical Potentials after Localized Thalamic Stimulation. *Edward W. Dempsey and Robert S. Morison* 293
The Interaction of Certain Spontaneous and Induced Cortical Potentials. *Edward W. Dempsey and Robert S. Morison* 301
Effects of Inorganic Ions on the Respiration of Brain Cortex. *Attilio Canzanelli, Gertrude Rogers and David Rapport* 309
The Effect of Serum Proteins, and of Serum and Its Ultrafiltrate on Tissue Respiration. *Attilio Canzanelli, Gertrude Rogers, Clement S. Dwyer and David Rapport* 316
The Spinal Origin of the Preganglionic Fibers to the Limbs in the Cat and Monkey. *W. A. Geohegan, G. A. Wolf, Jr., O. J. Aidar, K. Hare, and J. C. Hinsey* 324
Effects of Hexylresorcinol and Other Agents on the Absorption of Sugars, Chloride and Sulfate from the Alimentary Tract. *Robert L. Driver* 330
Reversals of Blood Pressure Responses Caused by Changes in Frequency of Brain Stem Stimulation. *Charles Berry, William McKinley and Robert Hodes* 338
Altered Function of Gall Bladder of Pregnant Guinea Pig. *G. S. Myers and W. T. Hill* 347
The Effect of Small Lesions of the Organ of Corti on Cochlear Potentials. *Edward M. Walzl and John E. Bordley* 351
Renal Blood Flow in Experimental Renal Hypertension. *A. C. Corcoran and I. H. Page* 361
The Effect of Animal Poisons (Rattlesnake Venom and Trypsin) on the Blood Histamine of Guinea Pigs and Rabbits. *M. Rocha e Silva and Hiram E. Essex* 372
The Effect of Adrenal Steroids in Water Intoxication. *W. J. Eversole, Robert Gaunt and E. C. Kendall* 378
The Excretion of Respiratory Tract Fluid. *Eldon M. Boyd and Alice Ronan* 383
Mechanisms for the Maintenance of Life in the Newborn During Anoxia. *H. E. Himwich, A. O. Bernstein, H. Herrlich, A. Chesler and J. F. Fazekas* 387
Dietary Control of Water Content of Skin of Albino Rat. *J. Haldi, G. Giddings and W. Wynn* 392
Effect of Purified Pituitary Preparations on Liver Weights of Hypophysectomized Rats. *Heinz L. Fraenkel-Conrat, Miriam E. Simpson and Herbert M. Evans* 398
Effect of Purified Pituitary Preparations on the Insulin Content of the Rat's Pancreas. *H. L. Fraenkel-Conrat, V. V. Herring, M. E. Simpson and H. M. Evans* 404
Effect of Gravity on the Blood Pressure of the Dog. *H. S. Mayerson* 411
Thyroid and Parathyroid Hormone Effects on Calcium and Phosphorus Metabolism. *Milan A. Logan, William R. Christensen and John W. Kirklin* 419
Temperature Sensation: The Spatial Summation of Heat. *C. M. Herget and J. D. Hardy* 426
Distribution of Available Water in the Animal Body. *Launce J. Flemister* 430
The Central Pathway for the Jaw-Jerk. *Frank Harrison and Kendall B. Corbin* 439
Inhibition by Direct Stimulation of the Turtle's Heart. *Frank P. Knowlton* 446
Effect of Thyroxine on Sensitivity of Nictitating Membrane of the Cat. *E. S. Lee, Jr.* 452
The Effect of Adrenal Cortical Compounds on Ketosis. *R. A. Shipley and E. G. Fry* 460

Action of Thiamine and Cocarboxylase on Frog Ventricle. *B. Jackson and G. Wald* 464
Increased Requirements of Pantothenic Acid and Vitamin B_6 during Experimental Hyperthyroidism. *Victor A. Drill and Richard Overman* 474
In Vivo and in Vitro Exchange of Phosphorus by Enamel and Dentin. *C. P. Barnum and W. D. Armstrong* 478
Bone and Tissue Phosphatase in Experimental Scurvy and Studies on the Source of Serum Phosphatase. *Bernard S. Gould and Harry Shwachman* 485
Blood Level of Magnesium Ion in Relation to Lethal, Anesthetic, Analgesic and Antitetanic Effects. *R. M. Moore and W. J. Wingo* 492
Calcium in Gastric Mucus and Regulation of Gastric Acidity. *Rhoda Grant* 496
Excitability-cycle of the Hypothalamus-sympathetic Neurone System. *R. F. Pitts and D. W. Bronk* 504

No. 3. February, 1942

Sensitization of the Submaxillary Gland to Acetylcholine by Section of the Chorda Tympani. *J. H. Wills* 523
The Rate of Emptying of the Rat's Stomach Following the Intragastric Administration of Glucose Solutions. *H. B. Pierce, Lorraine F. Haege and P. F. Fenton* 526
Smooth Muscle Motor-Units in Small Blood Vessels. *George P. Fulton and Brenton R. Lutz* 531
Contrasting Effects of Local Application of Adrenalin on the Denervated Iris of the Cat and the Monkey. *E. A. Weinstein and M. B. Bender* 535
Changes in the Balance of Respiratory Drives Resulting from Open Pneumothorax. *Robert Gesell and Carl Moyer* 539
The Experimental Production of a Hemophilia-Like Condition in Heparinized Mice. *Alfred L. Copley and Joseph J. Lalich* 547
The Regulation of Arterial Blood Pressure in the Seal during Diving. *Laurence Irving, P. F. Scholander and S. W. Grinnell* 557
Some Effects of Progesterone on Male and Female Mice. *William F. Starkey and James H. Leathem* 567
The Relation of Heat Production to Water Metabolism during the Administration of Synthetic Thyroxine. *John M. Bruhn* 572
The Metabolism of Calcium and Phosphorus as Influenced by Various Activated Sterols. *Evan W. McChesney and Frederick Messer* 577
Copper-Induced Pseudopregnancy in the Adult Estrous Rat. *A. Dury and J. T. Bradbury* 587
Relative Increase in Chloride Excretion in the Dog after Graduated Doses of Mercurial Diuretics. *Charles C. Roby and Carl Pfeiffer* 591
Hemoglobin Radioactive Iron Liberated by Erythrocyte Destruction (Acetylphenylhydrazine) Promptly Reutilized to Form New Hemoglobin. *W. O. Cruz, P. F. Hahn and W. F. Bale* 595
Radioactive Iron Used to Study Red Blood Cells over Long Periods. The Constancy of the Total Blood Volume in the Dog. *P. F. Hahn, W. F. Bale and W. M. Balfour* 600
The Effect of Partial Hepatectomy on the Blood Volume in the White Rat. *Preston Lowrance and Alfred Chanutin* 606
Gastric Inhibition Caused by Amino Acids in the Small Intestine. *J. Earl Thomas* 609
Response to Growth Hormone of Hypophysectomized Rats When Restricted to Food Intake of Controls. *Walter Marx, Miriam E. Simpson, William O. Reinhardt and Herbert M. Evans* 614
Nervous Pathways for the Reflex Regulation of Intestinal Pressure. *W. B. Youmans, A. I. Karstens and K. W. Aumann* 619
Cephalogyric Reactions of Non-Labyrinthine Origin. *E. A. Spiegel* 628
Some Effects of Prostigmine and Acetylcholine on Cortical Potentials. *P. O. Chatfield and E. W. Dempsey* 633

Fundamental Differences in the Excitability of Somatic and Autonomic Centers in Response to Anoxia. *E. Gellhorn, R. Cortell and H. Blake Carlson* 641
The Utilization of Blood Oxygen by the Distended Intestine. *Hampden Lawson and A. M. Ambrose* 650
Relationship between the Parathyroid and the Gastric Glands in the Dog. *M. J. Schiffrin* 660
A Study with Radioactive Phosphorus of the Permeability of the Rat Placenta to Phospholipid. *Paul E. Nielson* 670
The Action Potentials of Skeletal Muscles of the Frog. *Harold Goldberg and J. A. E. Eyster* 676
Cortical Responses to Electric Stimulation. *A. Rosenblueth and W. B. Cannon* 696
The Calorigenic Effect Produced by Various Mixtures of Foodstuffs. *Gordon C. Ring* 742
The Influence of Prostigmine, Atropine and Other Substances on Fibrillation and Atrophy in the Denervated Skeletal Muscle of the Rat. *R. Levine, J. Goodfriend and Samuel Soskin* 747
The Nature of QI and QIII. *H. E. Hoff, L. H. Nahum and W. Kafuman* 752
The Pathway of Sympathetic Nerves to the Ciliary Muscles in the Eye. *J. B. Mahney, M. W. Morgan, Jr., J. M. D. Olmsted and I. Wagman* 759
Transmission Fatigue and Contraction Fatigue. *E. C. del Pozo* 763
Blood Viscosity under Different Experimental Conditions and Its Effect on Blood Flow. *R. W. Eckstein, D. Book and Donald E. Gregg* 772
Effect of Bile and Bile Salts on Absorption of Sodium Oleate from Jejunal Loops of Dogs. *Robert W. Virtue, Mildred E. Doster-Virtue, Dorothy I. Smith and Jacob Greenblatt* 776
Increased Dextrose Appetite of Normal Rats Treated with Insulin. *Curt P. Richter* .. 781
Index 789
